

# Weave a Bowl

Watch *Picturing America: Pottery and Baskets*  
with the Greenwood Public Library

1

Tie some yarn to the bottom of one of the plastic spokes.

2

Begin weaving that yarn in and out of each plastic spoke and continue around the circle.

3

When you want to change colors, cut the yarn you are using and tie a new color of yarn to it.

4

Continue this process, changing colors when you want to, until you reach the very top. Cut the yarn and tie it off.

5

Email pictures of your completed projects to [greenwood.library@lib.de.us](mailto:greenwood.library@lib.de.us).
